

Skyline Short Term Missions Outreach Promotion Policy

Church Initiated

The Church via the Missions Commission brings an outreach into being. It is presented to the congregation at large and encourages everyone to participate. It may be actively promoted through the following avenues; bulletin inserts' power point, bulletin board, support letter, fundraising activities, prayer support, commissioning prior to going, and reporting to the church body upon return. It is the only outreach effort that may be promoted on Sunday other than a support letter placed in the church mailboxes.

Church Sponsored

The Missions Commission does not necessarily initiate a Church Sponsored outreach. However, the church via the Missions Commission supports it financially. If not Church initiated, it may be promoted through the following avenues; support letter, fundraising activities, prayer support, commissioning prior to going, and reporting to the church body upon return.

Church Supported

All Missions outreaches are Church Supported regardless of whether the Church initiates or sponsors them financially as long as they have completed the application process and been sanctioned by the Missions Commission. They are entitled to: a letter explaining their outreach, prayer support, commissioning prior to going and reporting to the Church body upon return.
